

Strike System Framework:

Infractions & Penalties:

The following is how a brother can acquire a strike:

- Missing a meeting without prior notice.
- Repeated Absences.
- Repeated tardiness.
- Neglecting fraternity duties.
- Negative comments about the fraternity.
- Inappropriate actions or statements.
- Not paying fines on time.

Tiered disciplinary System

The fraternity's disciplinary system is structured in tiers, with each level of consequence building upon the last. Strikes are the highest degree of consequence, followed by fines and point deductions.

- **Strikes:** The most severe consequence, reserved for serious and/or repeated infractions. All strikes are accompanied by a fine and a point deduction.
- **Fines:** A monetary penalty for specific infractions. All fines are accompanied by a point deduction.
- **Point Deductions:** The lowest level of consequence. Point deductions can be issued alone for minor infractions or as a component of a strike or fine.

Strikes outline:

1 Strike: A formal written warning, a point deduction, and a fine. The fine will be determined by the specific infraction that resulted in the strike, as outlined in the fraternity's constitution and bylaws. For instance, an unexcused absence that results in a strike will carry the associated fine from the constitution.

2 Strikes: Brothers/Pledges who accumulate two strikes will be required to meet with the Internal Affairs Committee for a thorough review of their behavior. Additionally, they will receive another fine and a point deduction. During this process, the leadership will determine appropriate remediation tasks tailored to the individual's situation. The committee will evaluate the individual's alignment with fraternity values and commitment, considering the nature and severity of the infractions. Continued membership will be contingent upon successful completion of assigned remediation and a demonstrated willingness to grow and improve.

3 Strikes: Immediate removal from the fraternity. The decision will be final, and the individual's membership will be terminated with no opportunity for remediation.

Individuals who accumulate two strikes will be **temporarily inactive** for a duration determined by the leadership, considering the nature and severity of the infractions. During this period, the member may be required to complete remediation tasks determined by leadership. The leadership will also **reassess the individual's membership in the Kappa Theta Pi - Mu Chapter**, questioning their alignment with fraternity values and commitment. The decision regarding continued membership will be made after a thorough evaluation, considering the member's past contributions, the nature of their infractions, the results of the remediation tasks, and their potential for growth and change.

Duration: Strikes have a shelf life of one academic semester. At the start of each new semester, all members will begin with a clean slate.

Right to Appeal: All Active Members have the right to dispute a strike if they believe it was issued in error or is unjustified. Appeals must be submitted to the Internal Affairs Committee for review.

Removal of Strikes: Members may reduce active strikes by demonstrating consistent positive behavior, active engagement, and contribution to fraternity events. For example, if a member has two strikes during the current semester, they may have one removed by the end of the semester based on commendable conduct, as determined by the Executive Board
